

RUMNEY FIRE DEPARTMENT
COMMISSIONERS MEETING
MINUTES
JULY 13, 2015

Commissioners: Terry French, John Bagley
Chief: David Coursey

Chairman Terry French opened the meeting at 7:10 pm.

The minutes of the June 8th meeting were approved as written.

Bills were reviewed and signed.

John questioned the status of the dry hydrant at Stinson Lake and was told it has been completed. The hydrant was lowered a foot, the area was loamed, seeded and hayed. The Chief has not heard from the property owners, so assumes this was satisfactory.

In regards to the CIP projects the Chief spoke with prior Chief, John Hemeon, regarding the scale in the ground in front of the bay door. Chief Hemeon did ground work when the building was originally built and stated the scale is only in the ground where the asphalt problem exists – that it does not extend under the slab of the building. There has only been one estimate received on this job.

There was further discussion about the CIP items and dollars involved as the department meets with the Planning Board/Selectmen on the 14th. Lighting units have been priced for replacement units only – not installed. A hot water heating system was added to the list and basic costs for an addition will be supplied by Terry at the meeting.

The breakfast held on the 11th was well attended. The next breakfast will be held on August 1st – more advertising is needed as the date has changed due to Old Home Day being on the second Saturday.

Possible fund raisers for Old Home Day were discussed.

The meeting adjourned at 8:10 pm.

Respectfully submitted,

Diana Kindell
Secretary
