

RUMNEY FIRE DEPARTMENT
COMMISSIONER'S MEETING
MINUTES
JUNE 12, 2017

Present: Terry French and Cam Brown
Chief: David Coursey
Secretary: Diana Kindell

Chairman Terry French opened the meeting at 7:15 pm.

The minutes of May 8, 2017 were approved as written and pending bills were signed.

Training: The Chief and Commissioners discussed personnel within the department and their attendance at meetings and trainings. Not being involved in training creates a problem even if the training is just a review of the trucks and location of all tools. Lack of knowledge becomes a liability at a scene.

Drop Spot: The station is to be a "drop spot" for used flags which will then be disposed of properly by the American Legion. Cam will provide a tote for storage.

W. Rumney: Quotes are needed for renovations at the West Rumney station. Steve Welch has been contacted and Jimmy Joyce will be included. If the lolly columns are removed, is it necessary to put in a support beam?

Air Conditioner: The Ladies Auxiliary has ordered an A/C unit for the meeting room. It should be here within a week. We certainly thank them for this contribution.

Chimney: The chimney is on hold until we find someone with insurance that can do the job.

Hydrant: Neil McIver is still working on the permits.

Furnace: The furnace at the station has a crack in the plenum. Should we be looking in to replacing the heating system before the repair does not hold up and we have no heat? It was suggested we look into the radiant heat system that heats from the ceiling.

Kirks: There is an outstanding bill from Kirks dating back to last year that Joe was checking with the insurance company for coverage. It has been given to him and he will speak with Christine at Kirks regarding the status of this.

Forestry Truck: The truck is running well, but still should have the injectors checked. A chain saw has been ordered to go on that truck. It will have a vent bar (cutting through roofs) as well as a regular bar and have a carbide chain.

The NH State forestry trailer is parked at the station for the summer. When needed, it will be taken by this department to wherever the fire is located.

The meeting adjourned at 8:15 pm.

Respectfully submitted,
