Re: Purple Heart Plates

We have a resident who has been awarded a Purple Heart for his military service, so he qualifies to receive a Purple Heart plate for one of his motor vehicles.

In recognition of his service, the State is no longer charging their portion of the Purple Heart plates. It is up to the Town's Selectmen to decide if they want to follow suite and allow the Town portion of his motor vehicle registration to be free in recognition of his service.

I am requesting the Selectmen to do so.
